

Madhu Balu

Frontend Developer | React.js

📞 9390532834 ✉ madhureddy.balu@gmail.com 🔗 linkedin 🌐 portfolio

SUMMARY

Frontend Developer with nearly 2 years of experience developing scalable React.js applications for production environments. Proficient in React.js, JavaScript (ES6+), Redux Toolkit, REST APIs, HTML5, CSS3, Axios, and Ant Design, with hands-on experience building reusable components, integrating REST APIs, optimizing application performance, and implementing responsive user interfaces. Experienced in developing features across Buyer, Seller modules while collaborating in Agile teams to build maintainable, high-quality frontend applications.

PROFESSIONAL EXPERIENCE

Junior Software Engineer

03/2025 – 07/2026 | Hyderabad, India

People Tech Group

- Developed a **multi-slot booking feature** in React.js supporting multiple date-range selections, availability validation, overlap prevention, quantity checks, dynamic pricing calculations, and seamless **REST API integration**.
- Developed a **reservation-based inventory locking feature** using React.js, Redux Toolkit, REST APIs, and **asynchronous API handling**, implementing **real-time countdown timers**, reservation expiry, and concurrent booking prevention to ensure accurate product reservations.
- Implemented **URL-based Redux state hydration** to preserve application state across page refreshes, enable **shareable deep links**, and improve navigation consistency within the **Advertising Marketplace** platform.
- Built **reusable React.js components** using **Ant Design**, improving UI consistency, responsiveness, maintainability, and accessibility across desktop and mobile devices.
- Reduced redundant **REST API calls** by **approximately 30%** through conditional date-range and category-based selection logic, improving application performance and data accuracy.
- Developed and enhanced frontend features across **Buyer** and **Seller** modules, supporting **product listings, campaign creation, approval workflows**, and other core business functionalities.
- Enhanced existing application features by resolving **production issues** and implementing improvements across **Google Maps integration, AI-powered chatbot** functionality, reusable UI components, and other **React.js** modules while collaborating in **Agile sprint cycles**.

Internship

09/2024 – 02/2025 | Adoni, India

People Tech Group

- Built **responsive, component-based user interfaces** using **HTML5, CSS3, JavaScript, and React.js**, ensuring consistent functionality across different devices and browsers.
- Integrated **REST APIs** to enable dynamic data rendering, handling **asynchronous API responses** and UI feedback states for an improved user experience.
- Diagnosed and resolved **UI layout and interaction issues**, improving **cross-browser compatibility** and reducing visual inconsistencies across the application.

TECHNICAL SKILLS

- Frontend:** React.js, React Hooks, Functional Components, React Router
- Programming Languages:** JavaScript (ES6+) , HTML5, CSS3
- State Management:** Redux, Redux Toolkit, Context API
- API & Networking:** REST APIs, GraphQL, Axios
- UI Libraries:** Ant Design, Material UI
- Web Concepts:** Responsive Design, Cross-Browser Compatibility, Reusable Components, Performance Optimization, Lazy Loading, Code Splitting
- Development Tools:** Git, GitHub , Azure DevOps, Docker, Postman, Vite
- Other:** Google Maps JavaScript API, Agile/Scrum, Debugging

EDUCATION

B.Tech – Computer Science and Engineering

Bharath Institute of Higher Education and Research

CGPA: 9.18 | 2024
